"I think this is the best CD this band has released to date. Solid vocals and superb playing built around Blake Williams' incredible banjo work--How could you miss?" – *Kyle Cantrell, Bluegrass Junction, Sirius XM*

"'Back Roads And Little Towns' was a big hit in the program last week, plenty of 'Who was THAT?!?' emails! Going to just close my eyes and point this week, the entire CD is just peachy." — *Cary Allen Fields, WICR*

Congratulations on your fine new CD from Mountain Fever! To my ears, this is the best of the recordings from The Expedition Show (including the CDs from the Williams & Clark Expedition). I've had a chance to listen to the disc all the way through, and I really like the combination of originals and standards (as well as the comedy track). All of the vocals are strong, so it'll be easy to find music from this CD to play on the radio. Good luck with 'Backroads And Little Towns' -- perhaps the strongest tune on a CD packed with great music. — *Amy Orlomoski, WHUS*
